2019 Transparency Report
Hi, We’re 2U.

We believe in the power of great non-profit universities—now and into the future. These institutions are the clearest paths to economic and social mobility. But as the needs of our society rapidly change, universities must evolve as well.
TO MEET THE CRITICAL NEEDS OF SOCIETY, higher education must be high quality, blended and connected, relevant, accessible and affordable, and sustainable. And we believe our partnerships help universities further these important goals.

To better serve the needs of learners, non-profit universities are embracing online education—an imperative only accelerated by the COVID-19 pandemic—and partnering with companies like 2U to enable their digital transformation. According to a recent report by HolonIQ, over 770 universities are now working directly with over 200 edtech companies to deliver their online educational offerings.¹

With a growing number of adult learners choosing to pursue education online, 2U recognizes the importance to parents, students, and policymakers of providing greater transparency into our partnerships with universities as well as the quality of offerings and outcomes we deliver together.

In an effort to provide that transparency, last year, 2U committed to become the first education technology company to release a comprehensive Transparency Report focused on six key pillars:

1. University Oversight & Accountability
2. Marketplace Openness
3. Access
4. Affordability
5. Quality
6. Outcomes

We hope the data and information released in this inaugural Transparency Report will lead to a more informed dialogue about the role we play in fostering a higher education system that better meets society’s critical needs. We encourage other edtech organizations to join us in embracing the need for greater transparency by publicly releasing their own metrics.

Although the data we’ve included in our Transparency Report tells an important part of the story, it’s the voices and experiences of faculty and students themselves that bring true meaning and life to the data. We invite you to check out their stories and more at 2U.com/latest.

2U is the digital transformation partner of choice to more than 70 world-class, non-profit universities. Over the past 12 years, we have invested over a billion dollars into our partnerships through building a scalable online campus, comprehensive people- and tech-enabled capabilities, and a portfolio of market-relevant, high-quality educational offerings, including short courses, boot camps, professional certificates, and undergraduate and graduate degree programs.

A Look at 2U in 2019

Career Curriculum Continuum

The Career Curriculum Continuum (CCC) is a 21st-century construct for lifelong learning that anchors universities at the center. Career represents the life of the student from an educational perspective. Curriculum is the entire spectrum of educational offerings institutions provide to lifelong learners. We believe unlocking the full potential of the CCC will better serve adult learners and strengthen the institutional sustainability of great non-profit universities.

4 Partners as of December 31, 2019.
We value and respect the institutional independence of our non-profit university partners. In degree-granting programs, our partners retain control over all core academic functions, which is consistent with accreditation requirements and critical to the success of our partnerships. The principles of institutional independence are also reflected in our degree program contracts.\(^5\)

**Admission Processing**

> "...the university shall, in its sole discretion, determine which prospective students shall be admitted into the program based on the admissions standards."

**Tuition**

> "The university shall have the sole authority to set tuition for the program."

**Financial Aid**

> "The university shall be solely responsible for the administration of all Title IV financial aid programs and will process all requests."

**Accreditation**

> "The university will be responsible to secure and maintain any accreditations, registrations, and licensure approvals necessary to operate the program."

**Curriculum**

> "The university shall be solely responsible for the timely design, timely creation, and ongoing revision of the program curriculum."

**Program Delivery, Development & Support**

> "Every course shall be taught exclusively by the university faculty and other instructional personnel selected by the university... The university shall be responsible for the creation of a training curriculum and shall be responsible for the hiring, training, support, management, and oversight of the work of the university faculty and other instructional personnel."

\(^5\) This language is drawn from 2U’s standard degree program form contract and represents the spirit with which we approach our partnerships. Following negotiations with each university partner, the final, mutually agreed upon language may vary.
2 Marketplace Openness

A full list of 2U’s university partners, educational offerings, and services can be found at 2U.com.

Every year, 2U invests hundreds of millions of dollars into our partners’ Title IV eligible degree programs through 2UOS—a comprehensive bundle of people- and tech-enabled services and capabilities. In 2019, across our portfolio of mature degree programs, our marketing and sales expense was approximately 22% of the total tuition generated.\(^6\)

---

\(^6\) Defined as marketing and sales expense for our degree programs that have been operating for at least three years as a percentage of total tuition generated from such degree programs.

\(^7\) Defined as the all-time (2008-2019) marketing and sales, servicing and support, and technology and content development expenses plus capitalized content development costs.
Adult learners and working professionals need greater access than ever before to high-quality online education—including degree and non-degree offerings—at different ages and stages of their lives. Our portfolio of degree and non-degree offerings are meeting this need for a diverse cross-section of learners, regardless of gender, race, age, or geography.
